**Subject:** Notice: 2013 Pacific Northwest Fish Screening and Passage Workshop - Registration Announcement

To all interested parties,

We invite you to Montana as the Fish Screen Oversight Committee convenes the 2013 Pacific Northwest Fish Screening and Passage Workshop in Missoula, September 17-19, 2013. The 2013 workshop represents the first time the meeting has been held in Montana. Missoula provides an outstanding location for technicians, engineers, and shop staff to share their experiences developing, installing, and maintaining fish screens and passage structures. In addition, Missoula is an ideal base for a personal or family vacation with many outdoor experiences within a couple hours. We encourage everyone to enjoy Missoula and Montana before, during, and after the workshop. The FSOC is pleased to announce that registration is now open for the 2013 Pacific Northwest Fish Screening and Passage Workshop. Attached is the registration form and draft schedule.

***Due to the level of interest in the meeting, seating is no longer available for the site visit; however, space is still available for the Tuesday and Thursday classroom sessions. If you elect to register for the meeting, your name will be placed on a waiting list. If space becomes available, the vacated seats will be offered to those on the waiting list, with preference being given to those at the top of the list. Despite the site visit being full, we encourage you to consider attending the meeting.***

We look forward to seeing you in Missoula.

Thank you,  
Neil Ward
